

Please quit trying to limit our first ammendment. Your not doing a good job and it refelects badly on us as a country. Some of your recent censorship actions are ridiculous and goes to show how out dated you are. If someone doesn't like something they see or hear, they can change the channel. That is what's great about America. Stop trying to ruin that. Why do you think you know whats best for me to see and hear? You obviously don't. Thank you
